PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building enterprise-grade web applications using React, Node.js, Express, and MongoDB. Experienced in developing multi-tenant SaaS platforms, REST APIs, workflow automation, and identity governance solutions. SAP Certified ABAP Cloud Developer with additional experience in enterprise application development and modern web technologies.

EDUCATION

Sri Sri University

Master of Computer Application CGPA: **9.03**

*Cuttack, Odisha
Aug 2023 – June 2025*

Trident Academy of Creative Technology

Bachelor of Computer Application CGPA: **7.92**

*Bhubaneswar, Odisha
Aug 2019 – July 2022*

PROFESSIONAL EXPERIENCE

WISIBILITY

MERN Stack Developer

*Remote (Part-Time)
Oct 2025 – Present*

Project 1: Identity Sphere — Identity Governance Platform (MERN)

- Architected and developed a multi-tenant Identity Governance platform using React, Node.js, Express, and MongoDB, supporting enterprise identity lifecycle management across multiple organizations.
- Designed a configurable identity correlation engine to consolidate user accounts from multiple application sources using rule-based matching and precedence logic.
- Built enterprise application onboarding, connector configuration, schema mapping, and identity materialization workflows supporting scalable data ingestion.
- Developed a complete access certification solution with reviewer assignment, approval workflows, entitlement-level decisions, and automated remediation triggers.
- Engineered a visual workflow automation engine supporting configurable remediation processes, ticket creation, email notifications, approval routing, and execution tracking.
- Implemented role-based access control (RBAC), JWT authentication, permission management, MFA, audit logging, and tenant-aware authorization across the platform.
- Developed Active Directory security assessment modules covering identity posture, privileged access discovery, segregation of duties (SoD), data hygiene, and governance reporting.
- Built scalable REST APIs, background schedulers, asynchronous processing pipelines, and optimized MongoDB data models for enterprise-scale identity datasets.
- Developed responsive React admin portals featuring advanced search, filtering, bulk operations, reusable UI components, dashboards, reporting, and export capabilities.

Project 2: Business Analysis Tool — IAM Transformation Platform (MERN)

- Designed and developed a multi-tenant platform for IAM transformation, client onboarding, application inventory, and governance lifecycle management.
- Implemented configurable onboarding workflows, metadata-driven schema builders, weighted prioritization engines, and comprehensive audit logging to support enterprise transformation initiatives.
- Built interactive dashboards, analytics modules, and optimized REST APIs enabling real-time workflow tracking, operational reporting, and scalable multi-client management.

Project 3: Capability Maturity Assessment Platform (MERN)

- Developed a configurable assessment platform supporting customizable frameworks, maturity models, scoring engines, target states, and historical assessment versioning.
- Implemented gap analysis, AI-assisted recommendation generation, remediation roadmap planning, executive dashboards, and multi-format report generation (Word, Excel, PDF).

- Built reusable React components, multi-step workflows, auto-save functionality, and responsive user interfaces to improve assessment efficiency and user experience.

LADERA TECHNOLOGY
Trainee – SAP ABAP Consultant

Bangalore, Karnataka
Nov 2025 – Present

- Developed Classical Reports, ALV Reports and OData services using SAP ABAP.
- Built CDS Views and RAP business objects on SAP S/4HANA.
- Customized SAP applications using BAdIs, User Exits and Enhancement Framework.
- Developed REST-based integrations between SAP backend and SAP Fiori.
- Worked with SQL, debugging and performance optimization techniques.
- Participated in enterprise application development and production support activities.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Java, Python, SQL, HTML5, CSS3, ABAP
Frontend	React.js, Material UI (MUI), SAPUI5, WordPress, Shopify
Backend	Node.js, Express.js, REST APIs, JWT Authentication, OData Services
Enterprise Technologies	SAP S/4HANA, SAP ABAP, CDS Views, RAP, OData
Tools & Platforms	Git, GitHub, Postman, VS Code, SAP GUI, Eclipse ADT, Hostinger, Vercel
Databases	MongoDB, MySQL
Concepts	Full Stack Development, Multi-Tenant SaaS Architecture, Authentication & Authorization, Role-Based Access Control (RBAC), Workflow Automation, API Integration, Database Design, Responsive Web Development, Agile Development

FREELANCE PROJECTS

• Entire Electrical Solutions	2023
• Zenastia – Shopify Dropshipping E-Commerce Website	2024
• House of Adam & Eve – E-Commerce Website	2025
• TravelKarle – Travel Platform	2025
• Livpex Realty – Real-Estate Website	2025
• Sri Ganapati Palace – Hotel Management System	2025
• Swargadwar HRMS – Odisha Government Project	2025

CERTIFICATIONS

• SAP Certified Associate – Back-End Developer – ABAP Cloud	https://tinyurl.com/scjns7tp
• IBM SkillsBuild – Front-End Web Development (Internship)	https://tinyurl.com/yy8avewr
